

VARIA17 SHORT CUT

Göteborg, Sweden 2017

For more than a decade, VARIA conducted festival projects, and the interest in Performance Improvisation has increased. But the opportunity to see and experience good improvised performance is still small. Through arrangements of VARIA SHORT CUT, VARIA now create recurring events where focused projects highlight interesting improvisational art, at various kind of art scenes.

The VARIA17 SHORT CUT Performance Program 30/9-1/10, offered two evenings with duet CUTs, performance dedicated to meetings between dance, movement and music, sound. Participating was six well-known national music, dance, movement and performance artists.

Audience filled up the seats during two greatly appreciated evenings, where the informal stage-room assisted with personal and lively touch to the full event.

Few of many reflections spoken was for example; *Great contrasts between duets – A complete evening where the theme of music and dance came through very well – Intimate and familiar setting...*

During VARIA17 SHORT CUT the Educational Program period 23-24/9, consisted of one movement and voice workshop where diverse artists and students participated.
